

Introduction

On October 4, 2005, the Board of Supervisors initiated a Comprehensive Plan Amendment to review and update the 2001 version of the Countywide Transportation Plan (CTP). The draft plan was referred to the Loudoun County Planning Commission on May 15, 2007. The Planning Commission reviewed the draft plan and the draft CTP map between May, 2007 and December, 2007 and held a public hearing in June, 2007. During its review, it held numerous community meetings around the County between July and September, 2007. The Planning Commission forwarded its work back to the Board of Supervisors in December, 2007 at the end of the Commissions' term of office. Work on the revised draft began in January, 2009.
